Mines Of Nevada County Employ 2078

Almost Quarter Million Paid Monthly to Miners in Wages

While several of the larger mines have increased their working forces during the past month, a number of the smaller properties have laid off men, due to lack of water, refinancing, or to the need of readjustments for development purposes, so that the total number of men remains almost the same as that in the Nevada City Nugget's last Mining Development issue covering this county. .....

....The number of men employed is now 2078 as compared with 2094 last month. The payroll stands at $244,945, still hovering near the monthly quarter million payroll which gives Nevada County its premier rank among all mining counties in the United States.

Among the mines that have added to their underground workings forces, will be noted the Murchie, Hussey, Canada Hill, Keystone Divide, and numerous smaller properties.

A score of properties throughout the county are being successfully financed either for reopening or for more thorough development. Money for mining development, however, is still difficult to obtain. Mining men generally are divided regarding the effect of the Federal Securities Act. The opinions in favor of it, are based on the fact that it will undoubtedly restore confidence to investors in mining stocks, while those opposed to it, hold that the responsibilities and penalties imposed by the act upon those who sell mining securities, are such as to deter them from offering new propositions to investors.

The table of operating mining companies, the men employed, and the monthly payrolls, compiled by the Nevada City Nugget from the most reliable sources of information, indicates that the mining industry in this county is in a very healthy condition.

SAN JUAN MINE

The San Juan mine, above North San Juan, is making regular monthly shipments of ore to a mill at Tacoma, Washington. Good values are taken from the ore which is being mined from a good sized vein in the shaft. The ore about 125 tons a month is trucked to the Narrow Gauge railroad at Nevada City and goes from San Francisco by boat to the mill. C. J. Lyser is superintendent.

LAVA CAP MINE

Early this month the first shipment of 4 tons of concentrates were shipped from the Lava Cap property. Development work is being carried on on the 600 foot, 800 foot, and 1,000 foot levels, with the vein being encountered on the last two. The mill is operating one shift. Otto E. Schiffner is superintendent.

EMPRESS MINE

Ed C. Jacobs, manager of the Empress mine in the Newtown section, has a crew of 40 men drifting and stoping on excellent ore from several levels in the mine. About 80 tons of ore per day is being run through the mill and flotation plant.

MURCHIE MINE

Since the installation of the new ball mill at the Murchie mine, the company is milling about 250 tons of ore per day. From reliable sources it is learned that the monthly yields run into five and six figures. Surveys are being made at this time for a new shaft much nearer the mill than the present one, which will be put in through a raise.

HOGE MINE

The Hoge Development Company now has a small crew developing the mine on different levels. Some prospect shafts are being sunk on the Hoge property in the Willow Valley district, not far from the Hussey mine. This property comprises 1200 acres.

PHOENIX MINE

Completion of the 200 foot winze in the lower workings of the Phoenix mine has been accomplished. The company has had considerable water to contend with but four pumps are now keeping the 400 foot shaft unwatered. They are in ore and it is expected the mine will soon be on steady production. T. S. Davey is superintendent.

ZEIBRIGHT MINE

Work has been resumed at the Zeibright mine, east of Nevada City, after remodeling some old buildings, erecting a cook house, and re-stocking with groceries, after a fire destroyed the bunk house and store room a short time ago. Ellsworth Bennetts is superintendent.

IDAHO-MARYLAND MINE

Unwatering of the old and new shafts of the Brunswick mine, northeast of Grass Valley, a property of the Idaho-Maryland Mines Co., Ltd., has been completed to the 1100 foot level. The company has begun construction of a fireproof dry house at the New Brunswick shaft. Ore bins and stations are being cut in the upper part of the old shaft, where drifting and development work is under way. Production will start in a short time. Excellent progress has been made in erection of the plant to handle the mine tailings and it is planned to start operations March 15.

Latest information from the Idaho Maryland Mines, Ltd., is that a big pump is being installed on the 1100 foot level in the New Brunswick shaft and they are shooting a sump on the 1250 foot level in the new Brunswick shaft.

HOMESTAKE GRAVEL

Latest reports from the Homestake gravel mine in Steep Hollow, is that they are still drifting in the long 1200 foot tunnel and taking out good values. This company took in supplies in the fall and are now snowed in. W. L. Jones, who is operating the property, leased it from C. E. Martz of Nevada City.

MCDONALD RANCH TAILINGS

Cash Cook and associates have a crew installing a new ball mill and other mine machinery in order to regrind the tailings of the old North Star-Empire mines.

CHAMPION TAILINGS

Mr. Anderson and partner, who are operating the dredger in the old Champion tailings, west of Nevada City, have been working one shift for about the last ten days. The company is handling several hundred yards of gravel per day and are well pleased with returns.

SPRING HILL

Drifting is continuing on ledge matter on the 900 foot level in the Spring Hill mine north of the Idaho-Maryland property. A diamond drill is also being used in the lower mine levels.

BULLION MINE

An ore pocket has just been cut on the 1500 foot level in the Bullion mine for the storage of stoped ore. The property is under the supervision of C. A. Brockington and has just been reconditioned in the last few months. Fourteen men are being employed at the property.

KEYSTONE DIVIDE

The Keystone Divide mine, west of Grass Valley, that was taken over recently by M. B. Rapp of Santa Monica, and associates, is now under going active development. Several hundred feet of open cuts have been made on the surface to determine values. The old Hocking shaft has been cleaned out and sunk to the 42 foot level, where a five foot ledge

Owing to the fact that Nevada County is regarded as one of the "white spots" on the map of the United States, a large number of unemployed men is being attracted here. While approximately 2078 men are steadily employed in Nevada County mines, there are hundreds of "rustlers" daily applying for employment at the mines who have absolutely no chance in the world for a job. This is a warning to those who have no means of subsistance NOT to come to Nevada County looking for employment.

Miss Retha Downey and sister-in-law, Mrs. Merton Downey, left Wednesday by auto for Los Angeles and expect to return Sunday. They will visit Miss Downey's sister in Fresno and other relatives in Southern California.

HOGAN'S CONDITION SLIGHTLY IMPROVED

Francis Hogan, who was found unconscious and weakened from loss of blood on the steps of his home last Friday morning, ih showing a slight improvement according to his attending physician Dr. A. H. Tickell.

Hogan bears no marks of violence except a small cut over the temple, which severed a blood vessel. He occasionally rouses to a semi-conscious condition.

Sheriff G. R. Carter is still continuing an investigation on the theory he was slugged and left in front of his home.

FLAMES DESTROY SKI CLUB HOUSE

The Ski Club house, picturesque, historical, was burned to the ground last evening. It would cost ,it is consertavatively estimated $5,000 to replace the building. It was insured for approximately $1200.

Skis, sleds and toboggans were burned with the building. The cause ofthe fire is unknown.

The first to actually discover the blaze were Mrs. R. J. Renfree, her son Norman, and her daughters, Betty and Dorothy, who were motoring out the Tahoe-Ukiah highway. Theysaw the flaming glow against the rain clouds and stepping on the gas, hurried to the scene. They drove into the grounds near the burning building. No one was on the premises. The flames quickly reduced the great building to ashes. Only the great hand-hewn beams resisted the fire and they were gradually being consumed when the party returned to Nevada City.

A call to the Nevada City Fire Department came too late.

The building was formerly known at the Central House station inthe old stage days. Only recenly the great loft was refloored, a stairway built, and other improvements made in preparation for the Ski Club Snow Ball, probably the most successful social and money raising event ever staged by the Ski Club.

RELIEF HILL HIRES TRUCK LOAD OF MEN

It seemed like olden times for a while Wednesday afternoon, when C. E. Clarke, superintendent of the Relief Hill gravel mine, stepped out into the vacant lot west of the Alpha Hardware store in Nevada City, and started calling for men and signing them up to go to work on his hydraulic property near North Bloomfield.

Within a few minutes fully 40 men were on the scene, mostly all strangers, and Mr. Clarke soon had a truck load of men ready to take out.

The Relief Hill gravel property shows promise. Several months of hydraulicking last year brought in some good returns in nuggets and coarse gold and also put the property in shape for an excellent run this year as soon as enough water can be secured to work.

District Deputy Lenore Coughlin is practicing the drill team steadily for the coming event.

At the next meeting of Ponemah Council, Degree of Pocahonta, Tuesday evening, March 6, they will entertain the great Pocahontas, Josephine Anderson.

Harry E. Bolton, of Bolton's Variety Store, and brother-in-law, Ted Sinnock, left Thursday by auto for Portland, Oregon, on a business trip. They expect to return home Sunday.

NEW LAW FIRM OPENS OFFICES IN NEVADA CITY

Judge George L. Jones, who with Francis Finnegan, purchased the library and office equipment of the late Judge Frank Nilon, arrived from San Francisco yesterday from a short business trip.

In taking over Judge Nilon's office, Messrs. Jones and Finnegan expect to add another room, making a suite of three rooms. Mrs. Reita Morrison, who served as stenographer and clerk for Judge Nilon, has been employed by the new firm.

The new law firm has a splendid background to start business in Nevada City and expect a full measure of success.

Judge Jones has been connected with the legal business of Nevada county, in private practice as a member of the law firm of Jones and Larue, as district attorney and judge of the superior court, for more than 30 years. In his third term as Superior Judge, he resigned to become president of the Bank of America Branch in Nevada City, from which he retired about two years ago. He was born in Truckee and educated in the Grass Valley schools.

Francis Finnegan, junior member, born in Alturas, came to Nevada City when he was three years of age. He attended the grammar school and after a year in the high school, finished in a San Francisco high school. He attended St. Mary's three years.

Both men are graduates of Hastings College of Law, San Francisco.

Francis Finnegan practiced law in San Francisco for about three years.

Mrs. George L. Jones is remaining in the bay district until her daughter, Miss Nancy Jones, completes her course in the University of California this spring.

DOLLAR DAY IS PROVED SUCCESS

The Dollar Day staged by merchants through the medium of the Nevada City Nugget was a success. Twelve firms participated in the campaign to give consumers a big dollar value in food, clothing, hardware and other things of common household use, and all but one or two report a satisfactory trade.

The Nevada City Nugget will repeat this Dollar Day edition in March if weather and other conditions are favorable.

Mrs. Tennant of Nevada City's Betty Jean Shop reported a very busy day in the sale of dollar dresses. Dollar dresses and other household and dress necessities in S. Lee Leiter's Lace House also found a ready sale. The Plaza Grocery sold many ot its Lenten specials, grouped under a dollar sign, and other dollar groups also proved popular.

In Grass Valley J. C. Penney Co. Hartung's Jewelry store and other Dollar Day advertisers reported satisfactory sales.

One notable feature of the sales were that Nevada City advertisers reported a considerable number of Grass Valley buyers, while Grass Valley advertisers commented on the Nevada City trade attracted by their advertising.

Mrs. J. J. Jackson St., and daughter-in-law, Mrs. J. J. Jackson Jr., were called to San Francisco last week on account of the death of Mrs. Bush, who was buried Friday. Mrs. Bush is the mother of Mrs. Alice Hearst, sister-in-law of Mrs. Jackson Sr.,

S. Lee Leiter, prominent Nevada City merchant, has returned home from a business trip to San Francisco and a week at Richardson Springs.

Nevada City Steps Out

It was good news to learn last Monday that Nevada City's Airport is to be completed. Ten thousand dollars already appropriated for the project will go a long way toward clearing and grading the two runways, but it will not be enough to provide lighting facilities, a gas plant and other improvements necessary to make it a first class landing field. Mr. Curtis, State airport engineer, when here last Sunday advised that an application be made for sufficient additional funds to complete the work. This has been done.

In the offing is the probability that the airport will be used for more than local airmail emergency purposes. The site is so located and so excellently situated naturally that aviation engineers who have studied it, believe that it will become in time one of the most used landing fields in the Sierras. One reason for this is that it is much superior topographically to many of those in adjacent counties. It is only nine miles, three minutes flying time, off the route of the East and West airmail line. It offers a safe haven above, but not too far from the edge of the fog blanket, which sometimes fills the Sacramento Valley for three weeks on end. In case of storms in the Sierras above this altitude, it provides another landing facility for pilots seeking to the north a clear flight over the "hump."

And when that airport is finished and the road giving access to it is completed, Nevada City will be decidedly on the U. S. airmap.

The city is moving forward in other phases. By the time spring blossoms again, we shall have capacious swimming pool for our youngsters, ourselves and our guests. Plans are maturing for an early start in the construction of this pool. Brush is to be cleared away, roads built and, as the years go on, bit by bit, we shall build a recreation park which will be the pride of this section.

The influx of home seekers during the past year has resulted in many improvements along Nevada City's residence streets. This movement—home building and home owning—will receive a fresh impetus when settled weather gives place to the present uncertainties. People from "down below" comment enthusiastically on the bright appearance of Nevada City's newly painted homes.

Decidedly Nevada City is stepping out.

But the most vital need of this city remains to be filled. That is, modern schools and equipment, schools that will put this city abreast of any city of its size in the state. For, schools are at the foundation of municipal progress, growth and happiness. Shabby down-at-the-heel school buildings, inadequate athletic facilities, lack of communal meeting places where parents and children can meet for all the varied activities of school life, these things handicap municipal progress like an Oregon boot. People with children will not settle in a community in which school facilities are inferior if they can avoid it.

But there is reason to hope that the school board is, with the revival of mining and the quickening of business activity throughout the city, preparing to submit a proposal for school improvement to the voters and tax payers of Nevada City within a few months.

It is noteworthy that many other cities of California are now overhauling their school systems and facilities, most of them taking advantage of the PWA grants of one third the cost, and the offer to lend the other two thirds at low interest rates with long term payments.

It would seem as if this year of 1934 was more opportune for replacing old school buildings and adding needed structures to those of more recent building, than any time in the past twenty years.

Good schools and school buildings are vital to the progress of any cummunity.

CAMPTONVILLE

By ACTON M. CLEVELAND

CAMPTONVILLE, Feb. 22.—Mrs. J. E. Pauly and sons, Warren and Leland, left Tuesday for Oakland on a short visit with her sister, Mrs. Vivian L. Long.

Constable A. H. Behrens has returned from a two weeks vacation at San Francisco.

Mr. and Mrs. Art King of Yuba City, passed through town Tuesday from Sacramento, enroute to Sierra City.

Hubert Long, Frank W. Meggers and Myron Pauly motored to Nevada City Monday evening to attend the theatre.

Mrs. Eugene H. Hays returned Tuesday from a few days visit with relatives at Browns Valley.

Charles L. Wilson, Jr., a student at the Sacramento Junior College, spent the week end visiting relatives at the Log Cabin.

Mr. and Mrs. Albert H. Hamilton motored to Nevada City Saturday on a short visit.

Julius E. Pauly motored to Marysville Tuesday on a short business visit.

Acton M. Cleveland has been reappointed by Governor Rolph, Notary Public for a four year term, commencing February 21st.

Mr. and Mrs. William O. Grant returned Wednesday from a few days business visit to the lower country.

Les Courtney and J. Osborne of the True Grit mine left Tuesday for Oakland.

CAMPTONVILLE, Feb. 21.—Erle Pauly motored to Nevada City Sunday on a brief business visit.

Mrs. Fred J. Joubert left Sunday for Sacramento, where she will spend a week visiting her sister, Mrs. E. L. Cleveland.

John MacDonald, of Oakland, spent the past week at his newly acquainted property, in Oak Valley.

Arthur Neuman and twin brother, Russel Newman, of Grass Valley, returned Sunday from a few days visit with relatives in Ookland.

H. C. Smith returned Saturday from a short business visit to Sacramento.

Mr. and Mrs. Eugene H. Hays motored to Browns Valley Saturday to spend the week end visiting relatives.

The people of this place are pleased over the letting of the Nevada City-Downieville mail contract, to M. P. Fischer.

Mr. and Mrs. Henry Clay of the Altaview mine, passed through town monday, enroute to the lower country.

Les Courtney of the True Grit mine motored to Nevada City Monday on business.

H. D. Willis, director of the Yuba county CWA work, and C. F. Galligan, manager of the Yuba county NRA, was in town Monday on official business.

Myron Pauly and party motored to Nevada City and Grass Valley Monday evening on a brief visit.

Little Jackie Bishop, son of Mr. and Mrs. Leonard Bishop, who recently passed his eleventh month, has just brought forth his first tooth.

The many friends of Mrs. Amelia Cunningham, of North San Juan, formerly of Celestial Valley, were very sorry Friday to learn that she fell and broke both bones in her ankle.

Forest Ranger Frank W. Meggers motored to Marysville Saturday on official business.

Charley Greene, is able to pilot his Zeroline truck about again after it has been laid up for repairs, following a collision with a forest service truck, driven by Earl Foster of Downieville. The government's truck brakes went wrong and it plunged into the gasoline truck.

RESIDENT OF ROUGH AND READY SUCCUMBS

Mrs. M. Newstead of the Rough and Ready district, passed away at the county hospital at 5:30 Wednesday evening.

She was born in England in 1879. A son resides in Vancouver, B. C. Funeral arrangements are awaiting word form her son.

Mrs. McGlashan, a native of San Francisco, who has lived in Truckee many long years passed away in that city a few days ago.

Holmes Funeral Home has charge of both funerals.

A. M. Holmes will conduct the funeral of Mrs. McGlashan in Truckee at 10 o'clock this morning.

DEATH DUE TO ACCIDENT CORONER'S JURY FINDS

Coroner A. M. Holmes assisted by a jury Monday evening, held an inquest as to the cause and responsibility of the death of James Boyd, a cook, killed in an auto accident last Saturday, and found it due to an unavoidable accident.

So far, efforts to locate a sister in Philadelphia, are unavailing. The body lies at the Holmes Funeral Home.

Boyd is also being finger printed in order to prove that he is an ex-service man.

Mrs. Phil Solaro and son, Max Solaro, were business visitors in Sacramento early this week.

SIGHT METER TO MEASURE LIGHT

A device of recent invention that promises to become an almost indispensable feature of modern household equipment is the sight meter.

This is designed, primarily, as a gauge of light in a room, just as the thermometer is a gauge of heat. It goes farther, however. It not only measures the intensity of light given out by lamp or bracket, but records it in such terms as to enable the housewife to use the lighting service at her disposal to the best advantage when engaged upon some task which, if performed under an inadequate light, might prove injurious to her eyes.

The sight meter is a portable instrument and, apparently, simple of construction. It consists of a disc and a meter placed side by side in a bakelite case about four inches long by two and one half inches wide. The disc is a sensitive plate, and light falling upon it generates electricity small in amount but proportionate to the intensity of the light received. This electric current is transmitted along wires to the adjacent meter upon whose dial is a graduated scale marking the light units suitable for various visual tasks, such as, for instance, reading (both normal and fine print), sewing, close scrutinizing and what is called critical seeing. A needle indicates upon the scale the quantity of light shed upon the disc and from this the person engaged in any visual tasks mentioned can determine whether he or she is receiving sufficient light for that particular task.

Not only, then, does this remarkable device measure light but it indicates the minimum amount of light one needs for every purpose, just as the ordinary household thermometer indicates healthful temperatures.

NEVADA COUNTY NATIVE IS CALLED BY DEATH

James L. Cahill, a native of You Bet, Nevada county, aged 62, passed away in Sacramento Sunday from an illness of several months, and was buried Tuesday from the Immaculate Conception church in Oak Park.

He was the son of the late Mr. and Mrs. Bernard Cahill, pioneer settlers of the You Bet section. He has lived in Sacramento about 25 years. For a time Mr. Cahill was employed by the Natomas company near Sacramento as a machinist.

Surviving him are four sisters: Mrs. Jack Conway, and Miss Mayme E. Cahill of Sacramento; Mrs. J. F. McCarthy of San Francisco and Mrs. Therese A. Davis of Hollywood; a brother, Charles Cahill of Marysville; two nephews, Ray Divis of Nevada City and Dewey Davis of Hollywood and a niece, Mrs. Ruth Pollard of Hollywood.

Many residents of Nevada county remember James Cahill for his kindly and congenial ways and will be sorry to learn of his passing.

U. S. Reunites Girl, Father

Shy little Irma Frances Welch, five, is shown above with Assistant Secretary of State Harry F. Payer, right, following her reunion with her father, James E. Welch, center, after three years of diplomatic negotiations between the United States and Venezuela. When his wife deserted him four years ago, Welch, an oil driller, was prevented by the Venezuelan government from bringing his daughter back to the United States. Later, the government jailed Welch for trying to regain custody of the child. Through diplomatic negotiations, the U. S. State Department brought about return of the child to the father.

American Heroines

By LOUISE M. COMSTOCK

Rebecca and Abigail Bates

IN AFTER years, when admiring tourists and school children asked the Misses Rebecca and Abigail Bates to write in their albums, they always signed themselves, with due pride, "The American army of two, in the War of 1812."

One bright August morning, only two months after the formal declaration of war, a British battleship appeared off the coast of Massachusetts, making straight for the little village of Scituate, whose harbor was filled with small, defenseless fishing craft. The only ones to see the ship were Rebecca and Abigail, girls in their teens, who happened to be up in the lighthouse of which their father was keeper, trimming and polishing the big lanterns. Their father was away, bartering for meal in a neighboring village. So the two girls ran out and gave the warning.

Back at the lighthouse Rebecca and Abigail again looked out over the sea, and saw that five small boats, bristling with armed soldiers, had left the ship and were bound for the harbor.

Now Rebecca had beguiled many a long hour in their lonesome home learning to beat out a rhythm on an old drum, while Abigail was capable of producing a squeaky but quite distinguishable tune on her father's fife. Armed with drum and fife the two sisters again ran out of the lighthouse, took their stand behind a low dune near the shore, and set up a dismal little tune. At first their music seemed rather a joke. Rebecca and Abigail sat down on the sand, breathless, and giggled at each other, rather frightened at what they were doing. But the British boats steadily approached nearer and nearer the shore. The girls jumped to their feet again. After all, the idea was a good one. Again they started in. Louder and shriller squeaked the fife, deeper and faster rolled the drum. Back and forth they marched, behind the protecting dune, accompanied by a very torrent of martial music.

SUBOFIBE FOR THE NEVADA CITY NUGGET NOW $2.50 A YEAR

NEW GOLD ON CAPITOL DOME

SACRAMENTO, Feb. 22.—California's State Capitol dome glistened under a new coat of gold paint today as CWA renovation of the structure neared completion.

Funds for the renovation were provided jointly by the Federal Civil Works Administration for California and the state.

New paint is being applied throughout, plumbing repairs are being made and complete renovation of the building is going forward.

The work should be completed within the next two or three weeks, it was announced here.

Mrs. Arno Browning and Miss Millie Clerkin of French Corral were Nevada City visitors Tuesday.

Washington, Calif.

F. 16-23

NOTICE

The California Debris Commission will hold a public hearing at 11 A. M. February 13, 1934, at the California Debris Commission Office, Room 208 Post Office Bldg., Ninth and I Sts., Sacramento, California, to receive protests against granting the application of Remington Hill Placers, Inc., to mine by the hydraulic process the Remington Hill Placer Mine, located near Remington Hill, Nevada County, California, draining into Steep Hollow Creek; thence into the Bear River and to store tailings in Combie Dam Reservoir below the mine.—Feb. 2, 9, 16, 23.

ADVOCATES FUND FOR ENDOWING LARGE FAMILIES

BERKELEY, Feb. 22.—Unless something is done to counteract the higher birthrate of the less intelligent portions of society, the world must look forward to a gradual decline in mental ability. One of the most practical methods of encouraging the more desirable elements in society to bring more children into the world is to increase the income of the family wage-earner at the birth of each child.

These conclusions are reached by Dr. Samuel J. Holmes, professor of zoology at the University of California in a new book which he has written under the title of "The Eugenic Predicament."

STERILIZATION NOT ADEQUATE

Professor Holmes believes that the problem of maintaining the quality of the human race cannot be solved by a system of sterilizing the unfit alone. The intelligence of man is threatened most, he believes, by the host of individuals who are not quite stupid enough to be put into feebleminded homes, or crazy enough to be put in a mental hospital, or weak enough to die naturally. Even were a program of sterilizing the unfit to be adopted, such people would escape.

Citing a number of students of this problem, Carr-Saunders, E. Rathbone, and Professor Pigou, Professor Holmes says that the most feasible eugenic plan appears to be the encouragement of young married couples to have more children by increasing their incomes in accordance with the size of the family which they produce. In answer to the argument that undesirable families would also increase under this stimulus, Professor Holmes points out that financial status has never been a factor in fixing the size of families among moron-type, or borderline people. They produce to their full capacity regardless of income and let charity take care of the result.

BIRTH CONTROL IMPLICATED

To some extent the present situation has come about, he adds, because of the development of birth control methods, not because birth control is essentially wrong, but because it seems to be practiced most assidously and conscientiously by the more intelligent people who should produce children.

As a background for these conclusions, Professor Holmes devotes half of his book to a discussion of the proofs that heredity is the essential factr in determining the nature of a population, and that only limited changes can be wrought on a people in general, by better standards of living, increased education, and other environmental factors.

MANY NATIONS TRYING PLAN

The plan of providing additional money for families with children, he adds, is not new. It is being tried on a large scale in France, and to a lesser extent in Germany, Austria, Belgium, Holland, Denmark, Norway, Sweden, Finland, Italy, Poland Czechoslovakia, Jugosalvia, Australia, and New Zealand. The difficulty is that in none of the countries does the stipend allowed for children meet the added cost of bearing and rearing them.

Professor Holmes admits that the possibility of the American people seeing the "handwriting on the wall" is almost nil. He adds that they will never see it unless an intensive educational campaign is carried out. He says: "The vital problem of eugenics may prove too much for us to cope with because we lack the enlightenment and real patriotism needful to plan and carry out any effective measures for racial improvements.

MINING DEVELOPMENT

(Continued From Page One)

assays $14 per ton and up. The shallow trenches and shafts on the Bath vein are also showing up ore equal in value to the Premier vein on the same property, which carried values to $26 per ton.

OMEGA GRAVEL

The Omega gravel mine near Washington, being opened and developed by A. W. Hoge of Nevada City and associates, has a crew of 15 employed. Long open cuts are being made and the property is being made ready for hydraulic operations as soon as sufficient water is available.

EAGLE BIRD

The Bagdad Copper Company recently completed the installation of a compressor, hoist and pumps at the Eagle Bird mine, south of Washington. This was formerly a noted gold yielded. The shaft is to be hunk to the 500 foot level with extensive lateral developments planned.

ANCHO AND ROCKY GLEN

The Ancho and Rocky Glen properties in the Washington district are now being operated by electric power. Development work is proceeding in the main tunnels in both properties. A. E. Barnhart is superintendent.

FRENCH CORRAL MINE

Bull dozers are being used in working the gravel at French Corral mine and a small concentrating plant has just been installed. As soon as sufficient water is obtainable the mine will go on full production. Ben Maddox is superintendent.

MATTIE GOLD MINING CO.

The old Seven-Thirty shaft now owned by the Mattie Gold Mining Company, in Deadman's Flat, south of Grass Valley, was upnwatered to the 300 foot level and inspection made on the north and south drifts, which extend 600 and 577 feet respectively. The shaft is another 100 feet deeper and is being unwatered. Superintendent M. McGuire has found the rich ledge of ore showing free gold that was mined in the early days. The company is to sink a new shaft 700 feet south of the old one. Extensive development of the old shaft is to be made. A new surface plant is being installed at the Alcalde.

BLACK BEAR MINE

The Black Bear quartz mine in the Rough and Ready district owned by the Cooley Butler interests, is being worked by several tributers who have leased the property. It produced high grade ore in early days. Ore is now being shipped with a good showing of values.

YUBA MINE

A small crew is employed at the Yuba mine above Washington, erecting buildings and plans are to reopen the old shaft early in the spring. Harry Morris is superintendent. Options were taken recently on three adjoining properties, the Grey Eagle, Lindsay, and Mayflower, all with past production records.

STOCKTON HILL MINE

R. M. Burnette and associates of San Francisco, took over the Stockton Hill mine in the Cottage Hill district, south west of Grass Valley within the last few days, and plans are to put the property into production as soon as possible. They will install a flotation plant. There are four veins exposed in the 160 foot shaft and a recent strike in a peculiar serpentine formation carried 354 ounces of gold per ton. Surface equipment includes a hoist, compressor and pump operated by a gasoline motor.

GENERAL GRANT MINE

Through the granting of a permit to a California corporation to sell stock, Lyman Gilmore and associates are planning to install a mill, compressor and other mine machinery, to work the cemented gravel that is to be mined by six men at work in the long tunnel now.

YOU BET GRAVEL MINE

The You Bet Mining Company, east of Nevada City, is operating on both sides of the narrow ridge which separates Steep Hollow from Missouri Canyon. A two mile pipe line has been installed and in order to provide an outlet a 700 foot tunnel through part of the bluff has been driven. Gold is being taken in this operation by the under-current method. On the steep walls of the Missouri canyon side, the mining of the gravel is toward the old camp of Red Dog. Coarse gold and some nice nuggets are being taken out in their work and production will steadily increase as they get well under way.

MISTLETOE MINE

The Mistletoe quartz mine, in the Rough and Ready district, has just been unwatered for the third time. A crew is busily engaged in hoisting ore, which is being mined on the 140 foot level of the 160 foot shaft. C. E. Laboyteau states the ore is very promising, carrying heavy sulphides and some free gold.

Named Healthiest in U. S.

Here are Clista Millspaugh, 16, of Mt. Pleasant, Ia.; Glen L. Sherwood, 19, of Larned, Kan., and Shirley Drew, 17, of Fayette, Mo. (left to right above), chosen as the healthiest of the 950,000 boys and girls enrolled in the nation's 4-H clubs. The two girls tied for first place at the National 4-H Club Congress in Chicago.

Invite him to your house...
The Man with the SIGHT METER!

Here is the SIGHT METER which measures the varying light intensities to determine by accurate register just what is meant by adequate illumination.

YOU WILL be fascinated when you watch a Sight Meter test being made of the lighting in your home.

Here is an instrument scientifically accurate and yet so simple to operate that you actually see for yourself whether you have the right kind of lighting in your home. It answers questions about lighting you have long wanted to know.

Is the light by father's favorite chair the right light by which to read a newspaper or magazine? Is mother's light by the davenport the best for her eyes while sewing? What is the best light for children's eyes while preparing school lessons? What seems wrong with the dining room lighting? Is the kitchen light where it should be? Maybe you have wondered just what could be done to make the lighting better in your home. Now you can really see where your lighting is faulty and intelligently plan to correct it.

Ask to have a representative of this company call at your home. He will bring a Sight Meter.

This service is without cost or obligation. Your electric company offers this service as a means of helping you get the best possible lighting in your home. Fill out the coupon below and mail today.

SOCIAL EVENTS

Birthdays of Washington And Lincoln Observed

The Seventh and Eighth grades of the Washington grammar school are are giving a program combining the birthdays of Washington and Lincoln this Friday afternoon. Mrs. Annie Godfrey and Mrs. Ethel Price are class leaders for the 7th and 8th grades respectively. The class leaders were assisted by the Miss Ruth Tamblyn and Mr. McGinnis, teachers of the two classes.

The program is as follows:

Biography of George Washington, by Faith White; two songs by the Seventh grade; Biography of Abraham Lincoln, Melvin Clark; Piano solo, Alice Graham; Debate, "Resolved That Washington Was a Greater Man Than Lincoln;" Dance by group of Seventh and Eighth grade girls; Play, "All Because He Could Not Tell a Lie;" Two selections, by Elementary School Orchestra; America, by audience.

There will be a Parent Teacher Association business meeting at 2:00 o'clock which will last a half hour or until the program starts.

Mrs. Foote Gives Tea Concert in S. F.

Mrs. Arthur B. Foote is giving a tea-concert in San Francisco Women's City Club on Post street this afternoon.

Mrs. Foote is offering a fine vocal program and will be accompanied by her daughter, Miss Janet Foote in one group, while Marshall Giselman of Nevada City, will play in succeeding groups.

Mrs. Figurski Hostess To St. Valentine's Party

The St. Valentine party given at the home of Mrs. John Figurski last Friday evening by the Auxiliary of Banner Mountain Post was a most enjoyable one.

There were fifteen present to enjoy th ehappy evening of games and entertainment. Refreshments were served at the close of the evening.

Banner Mt. Auxiliary Gives Card Party Tonight

The Ladies' Auxiliary of Banner Mountain Post, No. 2655, of Nevada City, are preparing for another of their popular card parties to be held in the Pythian Castle this evening, February 23.

Prizes are to be awarded for whist, high and low; and bridge, high and low. There will also be a door prize. Mrs. John Figurski and Mrs. King are on the entertainment committee.

Laurel Parlor Puts on Easter Bonnet Contest

Laurel Parlor, N. D. G. W., enjoyed a happy social time after their meeting Wednesday evening making Easter bonnets.

All members engaged in the hat making contest and were provided with the pretty materials. It proved amusing and interesting. Mrs. William Hutchinson won the prize for the most attractive hat, with Mrs. K. N. Williamson winning second.

Dainty refreshments were served.

Eastern Star Enjoys Colonial Party

A jolly Washington's birthday party was enjoyed by the Eastern Star Tuesday evening, many members being dressed in Colonial costumes.

After the meeting was over Miss Esther Tremaine gave a reading on the Intimate Life of George Washington, after which a number of amusing games suitable to the occasion were played.

Mrs. George Stine won the prize in the bean bag game and Katie Eddy captured the prize in pinning the hat on George Washington.

All adjourned to the banquet room which was artistically decorated. An immense George Washington pie with colored streamers to each plate forming the central feature in the artistically decorated table. As the streamers were pulled out each one drew a tiny George Washington hatchet. Toasting and jokes were indulged in while partaking of the dainty luncheon.

At the next meeting, March 6, there will be an initiation of two candidates.

Ladies' Aid Society Enjoys Washington Luncheon

About five auto loads of members of the Ladies' Aid Society of the Methodist church were guests of the Ladies' Aid of Grass Valley yesterday afternoon at a George Washington luncheon.

The Epworth League chapel, where the luncheon was held and the tables were appropriately decorated for Washington's birthday.

The Nevada City members enjoyed a happy time and those who did not attend missed a most delightful afternoon.

Bachelor Party Voted Big Success

CAMPTONVILLE, Feb. 22.—A delightful bachelor party was enjoyed Tuesday evening at the Pauly home on Main street when a number of the young men of the community gathered and partook of a feast of limburger, beer and tamales. Following the feed, the evening was spent in cards, and penny ante, that would even put Dutch Jake in the background, prevailed. The following participated, and a genuine jovial evening was spent: Erle Pauly, Hubert Long, Frank W. Meggers, F. Pendola, Myron Pauly, Bill Groves, and Winsmore Chapman.

Past Presidents of N. D. G. W. Entertain

The Past Presidents Association, of the Native Daughters of the Golden West, which is composed of the past presiding officers of Laurel Parlor of Nevada City and Manzanita Parlor of Grass Valley, met in the Pythian Castle last evening.

Mrs. Annie Scheemer, chairman of the entertainment committee, provided a most enjoyable evening of amusement. Delicious refreshments were served.

Mr. and Mrs. R. E. Smith of Alleghany were recent Nevada City visitors.

MRS. MOOSER HURRYING HOME FROM ABROAD

Mrs. Grace Mooser, who releived a cable Monday in Paris, telling of the death of her husband that morning, sent a message that she was leaving for the United States Wednesday, February 21, on the S. S. Olympic. It is thought that her daughter, Miss Alice Mooser, will also accompany her mother home.

Mr. Mooser's death is keenly felt by all Nevada county people who knew him. He was not only vice president of the Bank of America in Grass Valley, but he was also city auditor and treasurer and always a willing civic worker, active club and fraternal man.

Funeral arrangements for Mr. Mooser await further word from his wife.

o

C. Ray Murchie of the Alpha Hardware store of Nevada City, returned Friday evening from attending the annual meeting of the California Retail Hardware Association in San Francisco.

o

Miss Laverne Engles, daughter of Mr. and Mrs. Fred Engles of Willow Valley, was taken to the hospital last week, suffering with pneumonia. Dr. W. W. Reed is the attending physician and states Miss Engels is improving from her illness.

Nevada City Helps Scouts Generously In Good Turn For Needy

The Boy Scouts of Nevada City, following President Roosevelt's appeal, did their "good turn," for the needy of this community. Probably never before has there been such a generous response as the citizens of this town made to appeal for relief.

Under the leadership of Scoutmaster Addington, twenty scouts, most of them high school students, excused for the day on last Tuesday, combed the city for food, clothing, bedding, and furniture for the families who lack comforts and necessities.

The great variety of household goods and food collected were stored in the vacant Parsons cottage in Spring street and will be dispensed to those who need them by the Nevada City Benevolent Association and Red Cross.

Here is a list of all the contributions:

CLOTHES

1 suit case of clothes
4 sacks of clothes
21 boxes of clothes
1 trunk of clothes
21 bundles of clothes
2 pairs slippers
1 pair of leggings

MINING ASSN. HEAD TO TOUR WESTERN STATES

J. C. Kemp van Ee, secretary, and Harry E. Sears, president of the Mining Association of California, will leave on a tour of the western mining states next week to present to them for approval the plan sponsorfornia, Inc., for a federal appropriaed by the association and Alta Califtion of $100,000,000 to aid in developing proven gold mining properties.

The decision to enlist the aid of other western states was reached at a meeting in Stockton of Alta California, Inc., the mining association, the Stockton Chamber of Commerce and other organizations of the San Joaquin Valley.

CANADA HILL TO HIT ST. LOUIS SOON, IS REPORT

Continued good progress is reported from the Canada Hill property of West Mines Corporation where drifting operations are under way to develop the St. Louis vein. The work is being performed on the nineteenth level of the mine and two shifts are employed in the task. The work is of particular significance because of the fact that it will develop a heretofore unworked vein at a depth of 500 feet vertically below the surface. Exact distance of the vein from the main shaft is not known as the dip of the vein has never been determined. However, conditions now showing in the crosscut indicate strong fracturing parallel to the strike of the vein and striking it is a matter of day to day expectancy.

The Canada Hill mine is producing a small tonnage of ore from a raise just started on the flat vein above the 19th level and North of the shaft. At this horizon a considerable segment of the flat vein remains unexploited and offers good opportunity for materal production. The Canada Hill flat vein was responsible for a production recorded as in excess of a million dollars from a limited area and the plans of West Mines Corporation contemplate the further extensive development of that vein in conjunction with other work.

At the Hussey mine, a raise has just been run through to the surface to furnish ventilation and a secondary exit from the mine. Following completion of the raise, attention is again being given to mining and development of ore with results comparable to those of the past several months. Gaining of additional depth below the present bottom level is already under way and sinking will continue until one or more additional levels are opened for mining. It is planned to continue the milling of all ores broken in development and to continue the mining of ores above the present shaft level. Steady increase in production is anticipated until the Company's mill is running to capacity on the Hussey ore.

At the West Mines mill, several test and custom runs have been lately made, indicating the increasing activity in the Nevada City-Grass Valley area as well as the good character of ores to be produced from them as yet slightly developed mines of the district. Mill time as available for test runs is extremely limited as the mill is needed to an increasing extent for treatment of ores from the company's Hussey mine.

NOW COME THE
SPRING FROCKS
SPECIAL SHOWING FEBRUARY 23 AND 24TH

We advise you to make an early selection—there will be on display Spring Coats and Dresses in all the new and wanted colors—the "ever-popular" print and in plain shades.

Special Announcement!

First, secure the proper foundation garment in GOSSARD or NEMO—Miss M. Gibbons, owner of the BETTY JEAN SHOPS will be here with a new and complete line. This Is Your Opportunity
